AMENDED IN SENATE APRIL 15, 2013

SENATE BILL

No. 777

Introduced by Senator Calderon

February 22, 2013

An act to add Section 13084 to the Government Code, to amend Sections 12556, 12726, 25147.7, and 25205.3 of, to add Sections 12599.5 and 12635.5 to, and to add Chapter 3.5 (commencing with Section 12559) to Part 2 of Division 11 of, the Health and Safety Code, and to amend Section 15301 of the Vehicle Code, relating to public safety.

LEGISLATIVE COUNSEL'S DIGEST

SB 777, as amended, Calderon. Public safety: fireworks.

Existing law authorizes the retail sale of safe and sane fireworks from June 28 to July 6, annually, pursuant to a license issued by the State Fire Marshal, unless otherwise prohibited or regulated by law or ordinance. Existing law requires various entities, including the State Fire Marshal, to seize certain prohibited fireworks. Existing law requires an authority that seizes fireworks to notify the State Fire Marshal of the seizure and provide specified information. Existing law requires the State Fire Marshal to dispose of the fireworks and requires dangerous fireworks to be disposed of according to specified procedures. Existing law requires the State Fire Marshal to acquire and use statewide mobile dangerous fireworks destruction units to collect and destroy dangerous fireworks from local and state agencies.

This bill would require the State Fire Marshal, by January 1, 2015, to establish and have operational regional collection centers for the purpose of receiving seized safe and sane and federally approved

fireworks. The bill would authorize the State Fire Marshal to permit a ~~recognized 3rd party testing entity, as defined,~~ *state licensed fireworks importer and exporter or wholesaler* to purchase any fireworks the ~~entity State Fire Marshal and a recognized 3rd party testing entity, as defined,~~ deems to be commercially viable. The bill would require the fireworks stored at the regional collection facility to be subject to certain requirements, including that they be stored for a period of not more than 90 days.

This bill would authorize, beginning January 1, 2015, the sale of certified safe and sane fireworks from 9 a.m. on December 26 to 11:59 p.m. on January 1 of the following year pursuant to a license issued by the State Fire Marshal, if authorized by a charter city, city, county, fire protection district, or city and county ordinance or resolution that may also restrict the hours of use of those fireworks. Since a violation of this provision or other existing related provisions in connection with the sale of those fireworks would be a misdemeanor, the bill would impose a state-mandated local program by creating new crimes.

The bill would also authorize a charter city, city, county, fire protection district, or city and county that adopts an ordinance or resolution authorizing the sale of safe and sane fireworks to require each applicant receiving a permit to pay a fee to the charter city, city, county, fire protection district, or city and county of a pro rata portion of the actual and reasonable costs incurred, on or before January 1, 2015, by the charter city, city, county, fire protection district, or city and county for, among other things, processing and issuing fireworks permits, inspection of fireworks stands, public awareness and education campaigns regarding the safe and responsible use of safe and sane fireworks, and related fire operation and suppression efforts, as specified. The bill would specify that the pro rata portion of those costs shall be based on a percentage of the permittee's sales and use tax return for the applicable permit period, not to exceed 7% of the gross sales of the fireworks sold in the charter city, city, county, fire protection district, or city and county, except that a cost recovery ordinance or resolution in effect on or before January 1, 2015, would be authorized to supersede that provision.

Existing law provides that if dangerous fireworks are seized pursuant to a local ordinance that provides for administrative fines or penalties and these fines or penalties are collected, the local government entity collecting the fines or penalties shall forward 65% of the collected

moneys to the Controller for deposit in the State Fire Marshal Fireworks Enforcement and Disposal Fund.

This bill would delete this provision.

Existing law imposes various fees and charges upon the management of hazardous waste, which money is deposited in the Hazardous Waste Control Account in the General Fund and is available, upon appropriation by the Legislature, for, among other things, hazardous waste management. These fees and charges are generally not applicable to hazardous wastes generated or disposed of by public agencies or as part of a public program, or to hazardous waste management facilities that are affiliated with a public agency or public program, as specified.

This bill would include within the list of hazardous wastes and facilities that are not subject to the above fees and charges (1) hazardous waste that results from the seizure or destruction of illegal fireworks by the State Fire Marshal or other authorized government fire protection agency ~~and~~, (2) a mobile fireworks treatment unit used by the State Fire Marshal to destroy illegal fireworks, *and (3) a regional fireworks collection center established by the State Fire Marshal.*

The bill would require, on or before January 1, 2015, the State Fire Marshal to collect and analyze data relating to fires, damages, seizures, arrests, administrative citations, and fireworks disposal issues caused by the sale and use of both dangerous illegal fireworks and safe and sane fireworks.

Existing law requires the Department of Motor Vehicles to suspend the commercial license of a person transporting dangerous fireworks, as specified.

This bill would clarify that those provisions do not apply to a person with a valid license under the State Fireworks Law, as specified.

Existing law provides that the Department of Finance has general powers of supervision over all matters concerning the financial and business policies of the state.

This bill would require, for purposes of monitoring the budgets of the Department of Forestry and Fire Protection and the Department of Toxic Substances Control, *as those budgets relate to programs regarding fireworks*, the director to create a plan for modifying the budget process to increase efficiency and focus on accomplishing program goals *relating to fireworks*. The bill would require the plan to include certain things, including ways to ensure transparency about program goals, outcomes, and funding.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: yes.
